

Spring Summer 2016

Across the planet humans have always revered objects, animals, spaces and at times each other as sacred. Here at Nomads, we try to embody this tradition with fabrics and clothing that tread softly on the earth, and are made as fairly as possible. This season's styles continue to showcase the best in eco-friendly fashion, funky hemp, bamboo and organic cotton skirts, tanks, dresses and leggings. New recycled polyester fabrics for men, and two brand new mind expanding prints. Clothing for a sacred planet. Clothes for an enlightened future.

Colour & Pattern Chart

We always do our best to match our printed colour swatches in our catalogue to the fabric colours we use, but the simple truth is that ink pigment, fabric pigment, and for that matter, screen colours are not the same. Please use this chart as a reference only for the great colour array we have chosen this season.
